EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

IN THE SPECIFICATION:

On page 1, line 1, the following has been inserted:

--This application is a continuation of U.S. Serial No. 10/055,532, now U.S. Patent No. 6,726,584, issued April 27, 2004.—

The following is an examiner's statement of reasons for allowance: upon reconsideration and in light of applicant's remarks the combination of Prinz in view of Walker and Adams is no longer seen as teaching the claimed invention. As argued by applicant, Adams teaches mixing dye-containing microcapsules with an enamel paint and then applying the paint mixture to a golf tee. Note column 10, lines 21-32. Adams lacks a teaching for using an adhesive that is activated by one of heat or radiation to adhere the microcapsules to the tee. Further, Adams specifically uses the paint of the paint mixture to color the tee as is well known in the art. The applicant argues persuasively that using this paint mixture would be completely unsuitable for a tennis ball. Thus, the statement in the Final Rejection of January 11, 2007 that it would have been obvious to one of ordinary skill in the art to use a heat-activated adhesive with the combination

of Prinz in view of Walker and Adams is seen as being impermissible hindsight and has been withdrawn.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
